Your Total Rewards

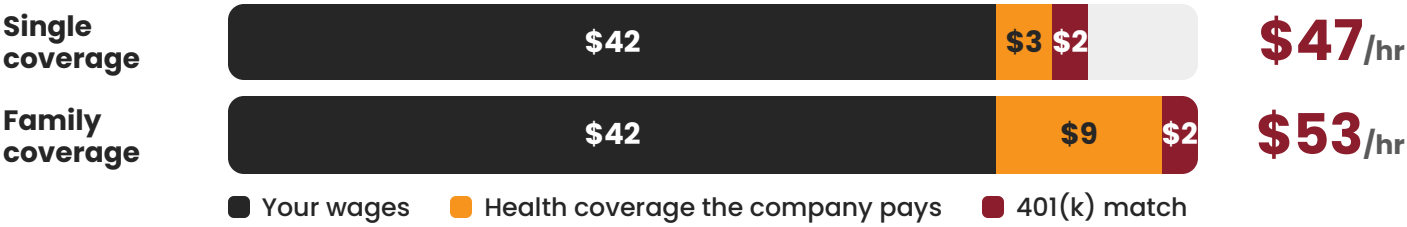

More than a paycheck

Example: journeyman electrician at $42/hr (middle of the $38-$46 range)

YOUR POTENTIAL ANNUAL TOTAL REWARDS*
Wages + paid time off + company-paid benefits, before overtime

$98k
single coverage | roughly $110k with family

WHAT EVERY HOUR IS REALLY WORTH

WHERE IT COMES FROM

Your pay

$42/hr in this example. Overtime is paid at time-and-a-half, and 1,000 overtime hours a year is typical.

Health coverage

Mears pays 75-85% of the medical premium. Employee-only dental is free. HDHP plans include company HSA money (up to $500 single, $1,000 family).

Retirement

Put in 6% and Mears adds 4.5% on top, free. You can start on day one.

Paid time off

104 hours of PTO plus 7 paid holidays, more than 17 paid days. Already counted in your wages above.

PLUS

- **$150-$220** per diem on travel jobs
- **$500** reporting bonus for new hires
- Apprenticeship, MV cert, CPR & OSHA 30 paid for
- PPE supplied
- **$50,000** life insurance at no cost

Tip: contribute at least 6% to your 401(k) so you get the full 4.5% match. Anything less leaves free money on the table.

*Example only: a journeyman at $42/hr over a standard 2,080-hour year, before overtime, per diem and the reporting bonus, with a 6% employee 401(k) contribution. Values are rounded estimates of what the company pays. Your numbers depend on your wage, hours, and benefit choices. HSA contribution depends on your benefit start date. Benefits begin the first of the month following 30 days of employment. Not a contract or guarantee of pay or benefits; plan documents govern.
